BECOME A MEMBER TODAY

The Society organizes and preserves collections, publishes discoveries, and raises awareness of New Hampshire’s heritage. Via our sponsored Archaeology Month and spring and fall meetings, the NHAS offers presentations and social interaction throughout the state, often in conjunction with other New England archaeological societies.

Your membership brings you our annual journal and our spring and fall newsletters. You don’t need a degree or years of experience – come see what your state has offered residents and visitors over the last 14,000 years!

**HISTORY OF THE SOCIETY**

In 1947, a group of professional archeologists, amateurs, history buffs, and relic collectors formed the New Hampshire Archeological Society to provide a place to pool their experience, their knowledge and their enthusiasm.

Since then, the Society has supported the formation of the New Hampshire Division of Historical Resources and a public participation program for archaeological research, management and education, administered by the Archaeology Bureau of the NHDHR.

**OBJECTIVE OF THE SOCIETY**

We promote, encourage, and stimulate the study of archeology in New Hampshire. We also encourage the protection and preservation of archaeological sites, monuments, and artifacts.

Vol. 57, No. 1, 2017
The Milford Suspension Footbridge: A Rare Survivor. Garvin
New Hampshire’s Merrimack River Locks and Canals: Historical and Archeological Research on Waterfall Development. Powell
